

# AD Inventory

AD Inventory is part of the AD Apps suite, developed by a veteran team of food service owner-operators. Our AD Apps suite features user-friendly apps designed to ensure food safety and streamline operations. Our apps are deployed in over 35,000 locations across 25+ countries, supporting 15+ languages to serve a global client base.

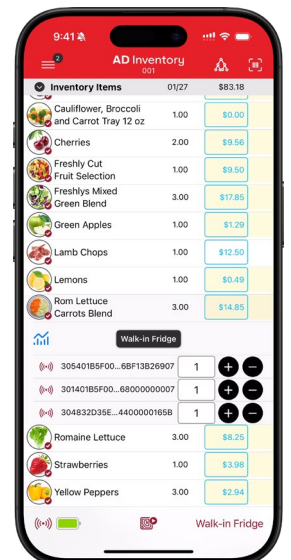

Did you know that globally, one in ten people are affected by foodborne diseases annually? Food safety is a critical factor to all food service providers. Another significant food industry challenge? Food waste. Over 108 billion pounds of food is thrown away in the U.S. each year, and by some estimations, nearly 40% of food produced will go to waste. All of this can be minimized with accurate inventory processes.

## AD Inventory

AD Inventory provides a faster, more efficient, more accurate way to take inventory.

Our AD Inventory app has revolutionized how thousands of restaurants, convenience stores, and grocery stores manage their inventories, deliveries, and DC ordering and delivery; as well as how they file quality complaints, and even how they handle recalls.

- 1 Improve efficiency** - Using AD Inventory can help eliminate out-of-date inventories, poor stock management or rotation, inadequate forecasting of stock, and unsafe food.
- 2 Leverage technology** - Smart algorithms catch mistakes before you make them, letting you finish inventory in minutes, not hours. That means big time labor savings.
- 3 Go paperless** - The app creates a fully paperless experience from inventory counts to electronic inventory submission.

In one case study, AD Inventory resulted in 4+ labor hours saved per week, 25% less unscheduled deliveries, and a \$1,500 reduction of excess inventory. Stop counting hundreds of products, handwriting your inventory, and then manually typing it in. Optimize your inventory processes with AD Inventory.

**AD Inventory achieves:**

- Fast and Accurate Inventory Collection
- Fast and Accurate Receiving
- Reduction of Food Waste
- Real-time recall management
- Rejection of Short Shelf-Life Products at Delivery
- Reduction of expired product by identifying items with short shelf life to promote First Expired, First Out Practice
- Improved Ordering with Increased Insights
- Visibility to Dwell Times in Store
- Full Case and Partial Case Counts

**Features:**

- RFID, Barcode, Tap and Voice
- Graphical representation of products for ease of onboarding new associates
- One-tap suggestive ordering
- Multiple users simultaneously
- Electronic distributor invoices
- Direct integration to distributors
- Log waste and transfers
- Smart error-prevention tools
- Offline mode capability

**App Integrations:**

- Export inventory data from the app to your POS, spreadsheets, or accounting software.
- Integrate with your distribution center to preload delivery invoices for easy scanning or verification.
- Place new distributor orders directly through the app.
- Generate suggested orders based on historical inventory counts.
- Receive instant notifications and instructions for managing product recalls, with built-in accountability tracking.
- Combine with the optional Quality Complaints Module for easy reporting of quality and distribution issues, enabling rapid response and resolution.

**About Avery Dennison Solutions**

Intelligent Food Industry Solutions enable labor efficiency, food safety, sustainability and enhance the consumer experience by harnessing the power of accurate, shared data throughout the food industry supply chain.

We can help define your requirements and develop solutions that will ensure your product is safe for consumption, in compliance with regulations and trusted by the consumer. Avery Dennison can show you how to “future-proof” your operations to quickly and easily adapt to the ever-changing world of the food supply chain.

**Not sure where to start?**

Determining the right solution for your foodservice environment begins with an Avery Dennison analysis.

Avery Dennison provides a complimentary consultation program where our consultants review your operations and identify process improvements. Our experts partner with you to examine each step of your everyday processes and operations and work with you to create a plan that addresses your specific needs.

To request a complimentary analysis and explore how our solutions can improve your food service environment, contact us at [ids.averydennison.com/sales](https://ids.averydennison.com/sales)
